

TECHNICAL DATA SHEET

GINGERBREAD HONEY BASE

Synthetic spicy-gourmand honey base - gingerbread, warm honey and sweet spices

1. PRODUCT IDENTIFICATION

Product name	Gingerbread Honey Base
Raw material type	Perfume base / spicy-gourmand honey base
Olfactory family	Gourmand / Spicy / Honeyed
Odour profile	Gingerbread, warm honey, cinnamon, cardamom, sweet spices, balsamic richness and a winter gourmand character
Position in perfume	Middle and base note
Application	Perfumes, fragrance formulations, oriental-gourmand compositions, winter perfumes, wellness fragrances, home fragrance and festive cosmetic products
Raw material origin	Synthetic
Ingredient category	Base
Inspiration	A warm gingerbread accord enriched with honeyed sweetness, cinnamon, cardamom and balsamic depth

2. OLFACTORY CLASSIFICATION AND ODOUR PROFILE

Gingerbread Honey Base is a synthetic perfume base developed as an enriched accord of gingerbread and honeyed balsamic sweetness. Compared with a simpler gingerbread profile, it has a more pronounced gourmand, softer and sweeter character, with warm honeyed richness that rounds out the spicy structure.

Its odour profile is built around warm gingerbread, cinnamon and cardamom, supported by warm honey and enveloping balsamic sweetness. The composition is gourmand, spicy and subtly honeyed, with a pleasant winter character reminiscent of festive desserts, hot drinks, spiced pastries and comforting wellness fragrances.

3. FUNCTION IN FRAGRANCE COMPOSITIONS

Gingerbread Honey Base functions as a middle and base note. In the heart, it contributes spicy warmth and a recognisable gingerbread effect; in the base, it leaves a sweet, honeyed and balsamic gourmand trail.

4. APPLICATION AND COMPATIBILITY

It is particularly suitable for gingerbread-honey accords, oriental-gourmand compositions, winter perfumes, festive fragrance formulations, wellness fragrances, home fragrance products, amber-vanillic compositions and sweet-spicy cosmetic fragrances.

TECHNICAL DATA SHEET

5. RECOMMENDED USE

A general recommended use level is not specified in the supplied technical data. The following typical working ranges should be adjusted to the desired effect, composition and intended product category.

Gingerbread-honey accords	3-15%
Oriental-gourmand compositions	2-12%
Winter perfumes	2-10%
Festive fragrance formulations	2-12%
Wellness fragrances	1-8%
Home fragrance products	According to technical and IFRA restrictions
Cosmetic fragrance formulations	According to IFRA restrictions

Because of its pronounced sweet-spicy and honeyed-gourmand character, gradual dosing is recommended. At low levels, it adds warm honeyed nuance and spicy fullness; at higher levels, it may form a dominant gingerbread-honey accord.

Permitted concentrations must be verified against the current IFRA certificate for the specific product category. Preliminary testing of compatibility, stability, colour and odour profile in the final formulation is recommended.

6. PHYSICAL AND TECHNICAL DATA

Appearance	Not specified in the supplied technical data
Colour	Not specified in the supplied technical data
Odour	Gourmand, spicy
Olfactory character	Warm, sweet, gourmand, spicy, subtly honeyed and balsamic, with notes of gingerbread, warm honey, cinnamon, cardamom and sweet-spiced richness
Density at 20 °C	Not specified in the supplied technical data
Refractive index at 20 °C	Not specified in the supplied technical data
Flash point	Not specified in the supplied technical data
Solubility	Not specified in the supplied technical data

TECHNICAL DATA SHEET

7. STABILITY AND COMPATIBILITY

Store in accordance with the conditions specified in the manufacturer's accompanying documentation. Keep the container tightly closed and protect the material from heat, light and air.

The base shows very good compatibility with gourmand, spicy, honeyed, balsamic, amber, vanillic, creamy, musky, oriental and winter fragrance accords. Compatibility and stability must be confirmed in the final formulation and packaging.

In oriental-gourmand compositions, it provides warm spicy sweetness and honeyed-balsamic depth. With amber materials and vanilla, it creates a soft, enveloping effect; in home fragrance and festive cosmetic products, it gives a distinctive impression of warmth and seasonal richness.

It combines well with cinnamon, cardamom, ginger, clove, nutmeg, honey accords, vanilla, tonka bean, benzoin, labdanum, amber bases, caramel, milky notes, sandalwood, creamy woods and soft musks.

8. REGULATORY DATA AND STATUS

Intended use: Professional use in perfume and fragrance formulations.

Vegan status: Vegan; does not contain ingredients of animal origin.

GMO status: Not specified in the supplied technical data.

IFRA status: Review the current IFRA certificate and apply the restrictions for the relevant product category.

9. STORAGE AND SHELF LIFE

Store according to the conditions specified in the manufacturer's accompanying documentation, in the original, tightly closed container, protected from air, light and heat sources.

Recommended storage temperature: Not specified in the supplied technical data.

Shelf life: 24 months under proper storage conditions.

10. SAFETY INFORMATION

For professional use only. Avoid direct contact with the undiluted product. Refer to the current Safety Data Sheet (SDS) for classification, safe handling, first-aid measures and disposal information.

11. DISCLAIMER

The information in this Technical Data Sheet applies to the raw material described and is based on the technical data provided. The user is responsible for confirming suitability, safety and regulatory compliance in the intended application and market. This document does not constitute regulatory approval or a guarantee of final-product properties.
